Ossiam US ESG Low Carbon Equity Factors UCITS ETF (the “Fund”) (1A (USD) ISIN IE00BJBLDJ48) a sub-fund of OSSIAM IRL ICAV (the “ICAV”)

Management Company: Ossiam, part of the Natixis group of companies

Objectives and Investment Policy

Objectives and investment policy:

The objective of the Fund is to deliver the net total returns of a selection of listed US equities.

The Fund is an actively-managed UCITS ETF and its composition is not constrained by any index.

The Fund’s investment universe consists mainly of equity securities.

The Management Company uses a quantitative model which implements a rule-based approach that aims to assess large, mid-cap and small cap equities from US markets based on financial data and ESG (Environment, Social, Governance) ratings.

The Management Company uses an optimisation procedure to determine the weights of the equities which are selected by the quantitative model.

The Fund will invest at least 90% of its Net Asset Value in such equities.

The Management Company performs the selection and the optimisation on a quarterly basis.

With respect to the Currency Hedged Share Classes, the Fund performs currency hedging using the NAV Hedge method described in the Prospectus. For this purpose, the Fund may use futures and forward foreign exchange contracts, each as described in the Prospectus. As described in the Prospectus, where the Sub-Fund uses FDI it will submit a risk management process to the Central Bank. The Sub-Fund will not have any exposure to repurchase agreements, stock-lending transactions or total return swaps.

The Reference Currency of the Fund is the US Dollar.

The 1A (USD) shares are listed for trading on one or more stock exchanges and investors may buy or sell shares through their usual broker on any trading day of the relevant stock exchange(s) which is also a Dealing Day in Ireland or, through a fund platform. Please contact your broker for additional information.

The 1A (USD) Share Class is an accumulating share class therefore income derived from the Fund is reinvested.

The 1A (USD) Share Class is not a Currency Hedged Share class.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

Please refer to the supplement of the Fund (the “Supplement”) for additional details about the objective and investment policy.

Risk and Reward Profile

The Fund is ranked 5 on the synthetic risk and reward indicator scale, which is based on historical data. Due to its exposure to equity markets, the Fund may experience significant volatility, as expressed by its rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean “risk free”.

Geographic concentration risk: Funds that concentrate investments in certain geographic regions may suffer losses, particularly when the economies of those regions experience difficulties or when investing in those regions become less attractive. Moreover, the markets in which the funds invest may be significantly affected by adverse political, economic or regulatory developments. The Fund will invest at least 90% of its Net Asset Value in US equities.

Please refer to the Supplement and to Ossiam IRL ICAV prospectus (the “Prospectus”) for additional details about the risks.

Special Risk Considerations

Market Risk: The value of the Fund's Shares is linked to equities, the value of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that the strategy of the Fund will indeed result in a return above any comparable investment strategy or that they will recover their initial investment.
